QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended April 2, 2022

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File Number: 001-41032

Kidpik Corp.

(Exact name of Registrant as specified in its charter)

Delaware

(State or other jurisdiction of
incorporation or organization)

81-3640708

(I.R.S. Employer
Identification No.)

200 Park Avenue South, 3rd Floor

New York, New York

(Address of principal executive offices)

10003

(Zip Code)

(212) 399-2323

(Registrant's Telephone Number, Including Area Code)

Securities registered pursuant to Section 12(b) of the Act:

Title of each class

Trading Symbol(s)

Name of each exchange on which registered

Common Stock, par value \$0.001 per share

PIK

The Nasdaq Stock Market LLC

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 (the "Exchange Act") during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated Filer

Accelerated Filer

Non-accelerated Filer

Smaller reporting company

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

Number of shares of registrant's common stock outstanding as of May 13, 2022: 7,617,834.

Cautionary Statement Regarding Forward-Looking Information

This Quarterly Report on Form 10-Q (this “Report”) contains forward-looking statements within the meaning of the federal securities laws, including the Private Securities Litigation Reform Act of 1995, regarding future events and the future results of Kidpik Corp. (the “Company”) that are based on current expectations, estimates, forecasts, and projections about the industry in which the Company operates and the beliefs and assumptions of the management of the Company. In some cases, you can identify forward-looking statements by the following words: “anticipate,” “believe,” “continue,” “could,” “estimate,” “expect,” “intend,” “may,” “ongoing,” “plan,” “potential,” “predict,” “project,” “should,” or the negative of these terms or other comparable terminology, although not all forward-looking statements contain these words. Forward-looking statements are not a guarantee of future performance or results, and will not necessarily be accurate indications of the times at, or by, which such performance or results will be achieved. Forward-looking statements are based on information available at the time the statements are made and involve known and unknown risks, uncertainties and other factors that may cause our results, levels of activity, performance or achievements to be materially different from the information expressed or implied by the forward-looking statements in this Report. Factors that might cause or contribute to such differences include, but are not limited to, those discussed elsewhere in this Report, including under, or incorporated by reference into, “Risk Factors”, which factors include:

- our ability to obtain additional funding;
- the continuing effect of COVID-19 on our operations, sales, and market for our products;
- our ability to build and maintain our brand;
- cybersecurity, information systems and fraud risks and problems with our websites;
- our ability to expand and grow our operations, and successfully market our products and services;
- changes in, and our compliance with, rules and regulations affecting our operations, sales, the internet in general and/or our products;
- shipping, production or manufacturing delays and/or tariffs on our products;
- our ability to increase members and sales;
- regulations we are required to comply with in connection with our operations, manufacturing, labeling and shipping;
- competition from existing competitors or new competitors or products that may emerge;
- rising inflation and our ability to control our costs, including employee wages and benefits and other operating expenses;
- our dependency on third-party manufacturers to supply or manufacture our products;
- our business, including our costs and supply chain, which is subject to risks associated with inflation;
- our ability to establish or maintain vendor and supplier relations and/or relationships with third-parties;
- our ability and third parties’ abilities to protect intellectual property rights;
- our ability to adequately support future growth;
- our ability to attract and retain key personnel to manage our business effectively; and
- other risk factors included under “Risk Factors” below.

You should read the matters described in, and incorporated by reference in, “Risk Factors” and the other cautionary statements made in this Report, and incorporated by reference herein, as being applicable to all related forward-looking statements wherever they appear in this Report. We cannot assure you that the forward-looking statements in this Report will prove to be accurate and therefore prospective investors are encouraged not to place undue reliance on forward-looking statements. All forward-looking statements included herein speak only of the date of the filing of this Report. All subsequent written and oral forward-looking statements attributable to the Company, or persons acting on its behalf, are expressly qualified in their entirety by the cautionary statements above. Other than as required by law, we undertake no obligation to update or revise these forward-looking statements, even though our situation may change in the future.

Summary Risk Factors

Our business is subject to varying degrees of risk and uncertainty. Investors should consider the risks and uncertainties summarized below, as well as the risks and uncertainties discussed in Part II, Item 1A, “Risk Factors” of this Quarterly Report on Form 10-Q and Part I, Item 1A, “Risk Factors” of our Annual Report on Form 10-K for the year ended January 1, 2022, which was filed with the Securities and Exchange Commission on April 1, 2022 (the “2021 Annual Report”). Investors should also refer to the other information contained or incorporated by reference in this Quarterly Report on Form 10-Q, including our financial statements and related notes, and our other filings made from time to time with the Securities and Exchange Commission. Our business operations could also be affected by factors that we currently consider to be immaterial or that are unknown to us at the present time. If any of these risks occur, our business, financial condition, and results of operations could be materially and adversely affected, and the trading price of our common stock could decline or our common stock could become worthless:

- Our history of losses, our ability to achieve profitability, our potential need for additional funding and the availability and terms of such funding;
- Our ability to execute our growth strategy and scale our operations and risks associated with such growth, our ability to maintain current members and customers and grow our members and customers;
- Risks associated with the effect of the COVID-19 pandemic, and governmental responses thereto on our operations, those of our vendors, our customers and members and the economy in general;
- Risks associated with our supply chain and third-party service providers, interruptions in the supply of raw materials and merchandise, increased costs of raw materials, products and shipping costs due to inflation, disruptions at our warehouse facility and/or of our data or information services, issues affecting our shipping providers, and disruptions to the internet, any of which may have a material adverse effect on our operations;
- Risks that effect our ability to successfully market our products to key demographics;
- The effect of data security breaches, malicious code and/or hackers;
- Increased competition and our ability to maintain and strengthen our brand name;
- Changes in consumer tastes and preferences and changing fashion trends;
- Material changes and/or terminations of our relationships with key vendors;
- Significant product returns from customers, excess inventory and our ability to manage our inventory;
- The effect of trade restrictions and tariffs, increased costs associated therewith and/or decreased availability of products;
- Our ability to innovate, expand our offerings and compete against competitors which may have greater resources;

- Certain anti-dilutive, drag-along and tag-along rights which may be deemed to be held by a former minority stockholder;
- Our significant reliance on related party transactions and loans;
- The fact that our Chief Executive Officer, Ezra Dabah has majority voting control over the Company;
- If the use of “cookie” tracking technologies is further restricted, regulated, or blocked, or if changes in technology cause cookies to become less reliable or acceptable as a means of tracking consumer behavior, the amount or accuracy of internet user information would decrease, which could harm our business and operating results;
- Our ability to comply with the covenants of our loan and lending agreements and future loan covenants, and the fact that our lending facilities are secured by substantially all of our assets;
- Our ability to prevent credit card and payment fraud;
- The risk of unauthorized access to confidential information;
- Our ability to protect our intellectual property and trade secrets, claims from third-parties that we have violated their intellectual property or trade secrets and potential lawsuits in connection therewith;
- Our ability to comply with changing regulations and laws, penalties associated with any non-compliance (inadvertent or otherwise), the effect of new laws or regulations, our ability to comply with such new laws or regulations, changes in tax rates;
- Our reliance on our current management, who are not party to any employment agreements with us;
- The outcome of future lawsuits, litigation, regulatory matters or claims;
- Certain terms and provisions of our governing documents which may prevent a change of control, and which provide for indemnification of officers and directors, limit the liability of officers or directors, and provide for the board of director’s ability to issue blank check preferred stock;
- The fact that we have a limited operating history; the effect of future acquisitions on our operations and expenses;
- Our significant indebtedness;
- The anticipated volatile nature of the trading prices of our common stock and dilution which may be caused by future sales of securities; and
- Risks associated with our status as an “emerging growth company”.

Kidpik Corp.
Notes to the Condensed Interim Financial Statements
(Unaudited)

NOTE 1: NATURE OF BUSINESS

Kidpik Corp. (the “Company”, “we”, “our” or “us”) was incorporated on April 16, 2015 under the laws of Delaware. The Company is a subscription-based e-commerce business geared toward kid products for girls’ and boys’ apparel, footwear, and accessories. The Company serves its customers through the clothing subscription box business and its retail website, www.kidpik.com. The Company commenced operations in March 2016 and its executive office is located in New York.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting: The accompanying condensed financial statements have been prepared in accordance with generally accepted accounting principles in the United States (“U.S. GAAP”), and the rules and regulations of the SEC that apply to interim financial statements and with the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. Accordingly, they do not include all of the information and footnotes normally included in financial statements prepared in conformity with U.S. GAAP. They should be read in conjunction with the consolidated financial statements and notes thereto included in the Company’s 2021 Annual Report on Form 10-K, filed with the SEC on April 1, 2022 (the “Form 10-K”).

The accompanying condensed financial statements are unaudited and include all adjustments (consisting of normal recurring adjustments) that management considers necessary for a fair presentation of its condensed financial position and results of operations for the interim periods presented.

The results of operations for the interim periods are not necessarily indicative of the results that may be expected for the entire year.

Fiscal year: The Company uses a 52-53-week fiscal year ending on the Saturday nearest to December 31 each year. The quarters ended April 2, 2022 and April 3, 2021 consist of 13 weeks. These quarters are referred to herein as the first quarter of “2022” and “2021”, respectively.

Use of estimates: The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reporting values of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenue and expenses during the reporting period. The more significant estimates and assumptions are those used in determining the inventory obsolescence, equity-based compensation, operating lease right-of-use assets and operating lease liabilities, and the valuation of deferred tax assets. Accordingly, actual results could differ from those estimates.

Emerging growth company: The Company is an “emerging growth company,” as defined in Section 2(a) of the Securities Act, as modified by the Jumpstart Our Business Startups Act of 2012 (the “JOBS Act”), and it may take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not emerging growth companies. Section 102(b)(1) of the JOBS Act exempts emerging growth companies from being required to comply with new or revised financial accounting standards until private companies (that is, those that have not had a Securities Act registration statement declared effective or do not have a class of securities registered under the Exchange Act) are required to comply with the new or revised financial accounting standards.

Recently adopted accounting pronouncements: In February 2016, the Financial Accounting Standard Board (“FASB”) issued Accounting Standards Update (“ASU”) 2016-02, *Leases (Topic 842)*, which requires lessees to recognize on the balance sheet the assets and liabilities for the rights and obligations created by leases with lease terms of more than twelve (12) months. The recognition, measurement, and presentation of expenses and cash flows arising from a lease by a lessee will continue to primarily depend on its classification as a finance or operating lease. However, unlike current U.S. GAAP, which requires only capital leases to be recognized on the balance sheet, this standard requires both types of leases to be recognized on the balance sheet. The standard also requires disclosures about the amount, timing and uncertainty of the cash flows arising from leases. These disclosures include qualitative and quantitative requirements, providing additional information about the amounts recorded in the financial statements. For emerging growth companies, this standard is effective for fiscal years and interim periods within those fiscal years beginning after December 15, 2021, with early adoption permitted. Refer to Note 7, “Lease” for information regarding our adoption of this guidance effective January 2, 2022 and a discussion of the impact to information presented herein, as well as additional required disclosures under the new guidance.

Accounting standards issued but not yet adopted: In June 2016, the FASB issued ASU 2016-13, *Financial Instruments—Credit Losses*, which replaces the incurred loss impairment methodology for financial instruments in current U.S. GAAP with a methodology that reflects expected credit losses and requires consideration of a broader range of reasonable and supportable information to inform credit loss estimates. The FASB has issued ASU 2019-10 which has resulted in the postponement of the effective date of the new guidance for eligible smaller reporting companies to the fiscal year beginning January 1, 2023. The guidance must be adopted using a modified-retrospective approach and a prospective transition approach is required for debt securities for which an other-than-temporary impairment had been recognized before the effective date. The Company is currently evaluating the impact of the guidance on its financial statements. The Company does not believe that the adoption of this standard would have a material impact on the Company’s financial statements.

Concentration of credit risk: Our financial instruments that are exposed to concentrations of credit risk consist primarily of cash, restricted cash and accounts receivable. We maintain our cash and restricted cash with high-quality financial institutions with investment-grade ratings. Although the Company's cash balance held with a U.S. bank may exceed the amount of federal insurance provided on such deposits, the Company has not experienced any losses in such accounts. The Company is exposed to credit risk in the event of a default by the financial institution holding its cash for the amount reflected on the condensed interim balance sheets.

Net loss per common share: The Company complies with the accounting and disclosure requirements of FASB ASC Topic 260, *Earnings Per Share*. Basic earnings per common share is computed by dividing net loss by the weighted average number of shares of common stock outstanding during the period. Diluted earnings per share reflects the impact of stock options and restricted stock units, if any, under the treasury stock method unless their impact is anti-dilutive.

Revenue recognition: The Company recognizes revenue from three sources; its subscription box sales, Amazon business and online website sales. Revenue is gross billings net of promotional discounts, actual customer credits and refunds as well as customer credits and refunds expected to be issued, and sales tax. Customers are charged for subscription merchandise which is not returned, or which is accepted and are charged for general merchandise (non-subscription) when they purchase such merchandise. Customers can receive a refund on returned merchandise for which return shipping is a cost to the Company.

Revenue for subscription box sales is recognized when control of the promised goods is transferred and accepted by the subscriber. Subscribers have a maximum of 10 days from the date the product is delivered to return any items in the delivery. Control is transferred either when a subscriber checks out or automatically ten days after the goods are delivered, whichever occurs first. Upon checkout or the 10-day period, the amount of the order not returned is recognized as revenue. Payment is due upon checkout or the end of the 10-day period after the goods are delivered, whichever occurs first. Starting on August 24, 2021 and ending January 6, 2022, we charged new subscribers an upfront styling fee before the box is shipped that is credited toward items purchased. The styling fees are included in deferred revenue until the time of client checkout or when the option to purchase the item expires.

Revenue from online website sales, which includes sales from our and Amazon online websites, are recognized when control of the promised goods are transferred to the Company's customers, in an amount that depicts the consideration the Company expects to be entitled to in exchange for those goods. Control is transferred at the time of shipment. Upon shipment, the total amount of the order is recognized as revenue. Payment for online website sales are due at the time of order.

The provision for anticipated sales returns consists of both contractual return rights and discretionary authorized returns.

Estimates of discretionary authorized returns for sales other than subscription sales, discounts and claims are based on (1) historical rates, (2) specific identification of outstanding returns not yet received from customers and outstanding discounts and claims and (3) estimated returns, discounts and claims expected, but not yet finalized with customers. Actual returns, discounts and claims in any future period are inherently uncertain and thus may differ from estimates recorded. If actual or expected future returns, discounts or claims were significantly greater or lower than reserves established, a reduction or increase to net revenue would be recorded in the period in which such determination was made.

Shipping and handling costs associated with outbound freight fulfillment before control over a product has transferred to a customer are accounted for as a shipping and handling cost in the statement of operations.

Taxes assessed by governmental authorities that are both imposed on and concurrent with a specific revenue producing transaction and are collected by the Company from a customer are excluded from revenue and cost of goods sold in the condensed interim statements of operations.

Restricted cash: Restricted cash balance consists of cash advances received by the Company from the cash advance agreement described in Note 9. The cash advances can only be used for purchases of products and marketing related services necessary to operate the Company, as defined by the agreement.

Inventory: Inventory, consisting primarily of finished goods, is valued at the lower of cost or net realizable value using the weighted average cost method. In addition, the Company capitalizes freight, duty and other supply chain costs in inventory. These costs are included in the cost of sales as inventory is sold.

Leasehold improvements and equipment: Leasehold improvements and equipment are recorded at cost. Depreciation for equipment is computed using the straight-line method over the estimated useful life of the assets ranging from three to five years. Leasehold improvements are amortized over the shorter of the term of the lease or the life of the improvement on a straight-line method. Expenditures that extend the useful lives of the equipment are capitalized. Expenditure for the repairs and maintenance are charged to expense as incurred. The gain or loss arising on the disposal or retirement of an asset is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognized in operations.

Intangible assets: Intangible assets consist of capitalized website development costs and are being amortized using the straight-line method over their estimated useful lives, ranging from one to three years. The Company periodically evaluates the reasonableness of the useful life of the intangible assets. Expenditures for repairs and maintenance are charged to expense as incurred.

Impairment of long-lived assets: The Company reviews its long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. In performing a review for impairment, the Company compares the carrying value of the assets with their estimated future undiscounted pre-tax cash flows. If it is determined that impairment has occurred, the loss would be recognized during that period. The impairment loss is calculated as the difference between the assets' carrying value and the present value of estimated net cash flows or comparable market values, giving consideration to recent operating performance and pricing trends. As a result of its review, the Company does not believe that any material impairment currently exists related to its long-lived assets.

Deferred financing costs: Deferred financing costs, net of accumulated amortization, are reported as a direct deduction from the face amount of the line of credit to which such costs relate. Amortization of debt issuance costs is reported as a component of interest expenses and is computed using the straight-line method over the term of the agreement, which approximates the effective interest method.

Income taxes: The Company accounts for income taxes using the asset and liability method. Under this method, deferred tax assets and liabilities are recognized with respect to the future tax consequences attributable to differences between the tax bases of assets and liabilities and their carrying amounts for financial statement purposes. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rate is recognized in the period that includes the enactment date. Valuation allowances are established when necessary to reduce deferred tax assets to the amount expected to be realized.

The Company applies U.S. GAAP accounting for uncertainty in income taxes. If the Company considers that a tax position is more likely than not of being sustained upon audit, based solely on the technical merits of the position, it recognizes the tax benefit. The Company measures the tax benefit by determining the amount that is greater than 50% likely of being realized upon settlement, presuming the tax position is examined by the appropriate taxing authority that has full knowledge of relevant information.

The Company has no unrecognized tax benefits at April 2, 2022 and January 1, 2022. The Company's federal, state and local income tax returns prior to fiscal years 2017 are closed and management continually evaluates expiring statutes of limitations, audits, proposed settlements, changes in tax law and new authoritative rulings.

The Company recognizes interest and penalties associated with tax matters, if any, as part of operating expenses and includes accrued interest and penalties with accrued expenses in the condensed interim balance sheets.

Advertising costs: Direct advertising and promotion costs are expensed as incurred. Advertising and promotion expenses totaled \$718,381 and \$844,252 for the 13 weeks ended April 2, 2022 and April 3, 2021, respectively, and are included in general and administrative expenses in the condensed interim statements of operations.

Bad debt expense: Bad debt expense is recognized when a receivable is no longer collectible after a customer is unable to fulfill their obligation to pay an outstanding balance.

Equity-based compensation: We measure equity-based compensation expense associated with the awards granted based on their estimated fair values at the grant date. For awards with service condition only, equity-based compensation expense is recognized over the requisite service period using the straight-line method. The grant-date fair value of stock options is estimated using the Black-Scholes option pricing model. Forfeitures are recorded as they occur. See Note 16, *Equity-based compensation*, for additional details.

Segment information: The Company has one operating segment and one reportable segment as its chief operating decision maker, who is its Chief Executive Officer, reviews financial information on a consolidated basis for purposes of allocating resources and evaluating financial performance. All long-lived assets are located in the United States.

NOTE 3: LIQUIDITY

The Company has sustained losses from operations since inception, negative operating cash flows and an accumulated deficit of \$35,729,859 as of April 2, 2022. The Company will continue to incur substantial operating expenses in the foreseeable future as the Company continues to invest in attracting new customers, expand the product offerings and enhance technology and infrastructure. These efforts may prove more expensive than the Company anticipates, and the Company may not succeed in increasing revenue and margins sufficiently to offset these expenses. Accordingly, the Company may not be able to achieve profitability, and the Company may incur significant losses for the foreseeable future.

To support the Company's existing operations or any future expansion of business, including the ability to execute the Company's growth strategy, the Company must have sufficient capital to continue to make investments and fund operations. Management has plans to pursue an aggressive growth strategy for the expansion of operations through increased marketing to attract new members and refine the marketing strategy to strategically prioritize customer acquisition channels that management believes will be more successful at attracting new customers and members. Management plans to launch new divisions and product lines to help attract new members and retain existing members. Management launched a new boys' apparel division in the summer of 2020 and launched a toddler division in early 2021. Management also has plans to increase efficiency in distribution and fulfillment capabilities to reduce costs associated with subscription box sales.

In November 2021, the Company completed an initial public offering (the "IPO"), in which the Company issued and sold 2,117,647 shares of its authorized common stock for \$8.50 per share for net proceeds of \$16.1 million, after deducting underwriting discounts and commissions, and offering costs.

The Company expects to continue to generate net losses for the foreseeable future as it makes investments to grow its business. Management believes that the Company's existing balances of cash and cash equivalents following the IPO will be sufficient to meet its anticipated cash requirements for at least twelve months from the date that these financial statements are issued. However, should the Company's current cash and cash equivalents not be sufficient to support the development of its business to the point at which it has positive cash flows from operations, the Company plans to meet its future needs for additional capital through equity financings, debt financings or other capital sources, including collaborations with other companies or other strategic transactions. Equity financings may include sales of common stock. Such financing may not be available on terms favorable to the Company or at all. The terms of any financing may adversely affect the holdings or rights of the Company's stockholders. If the Company is unable to obtain adequate financing or financing on terms satisfactory to it when required, the Company's ability to continue to support its business growth, scale its infrastructure, and to respond to business challenges could be significantly impaired.

NOTE 4: INVENTORY

Inventory consists of the following:

	April 2, 2022 <u>(unaudited)</u>	January 1, 2022 <u></u>
Finished goods	\$ 12,035,275	\$ 10,596,968
Goods in transit	233,971	1,021,629
Total	\$ 12,269,246	\$ 11,618,597

NOTE 5: INTANGIBLE ASSETS

Intangible assets consist of the following:

	April 2, 2022 <u>(unaudited)</u>	January 1, 2022 <u></u>
Website development	\$ 267,303	\$ 267,303
Less accumulated amortization	(267,303)	(267,303)
Intangible assets, net	\$ -	\$ -

There was zero and \$230 amortization expense for the 13 weeks ended April 2, 2022 and April 3, 2021, respectively.

NOTE 6: LEASEHOLD IMPROVEMENTS AND EQUIPMENT

Leasehold improvements and equipment consist of the following:

	April 2, 2022 <u>(unaudited)</u>	January 1, 2022 <u></u>
Computer equipment	\$ 107,224	\$ 90,205
Furniture and fixtures	184,207	184,207
Leasehold improvements	59,523	59,523
Machinery and equipment	17,399	17,399
Total cost	368,353	351,334
Accumulated depreciation	(310,032)	(304,366)
Leasehold improvements and equipment, net	\$ 58,321	\$ 46,968

Depreciation expense amounted to \$5,665 and \$9,491 for the 13 weeks ended April 2, 2022 and April 3, 2021, respectively.

NOTE 7: LEASES

The Company adopted the ASC 842 guidance on January 2, 2022, using the modified retrospective transition effective date method. As part of that adoption, we have elected the package of three practical expedients, which includes the following: an entity may elect not to reassess whether expired or existing contracts contain a lease under the revised definition of a lease; an entity may elect not to reassess the lease classification for expired or existing leases; and an entity may elect not to reassess whether previously capitalized initial direct costs would qualify for capitalization. The Company has elected not to utilize the hindsight expedient in determining the lease term, and to not record leases with an initial term of 12 months or less on our balance sheet. Additionally, the Company has elected to account for lease components and non-lease components as a single lease component for all asset classes. Lease expense is recognized over the expected term on a straight-line basis. The adoption did not have a material impact on the Company's condensed interim statements of operations or cash flows.

The Company entered into a sub-lease agreement for warehouse space from a related party on April 1, 2021. The Company pays 33.3% of the related party's fixed monthly rent. The lease expires on September 30, 2023. As of April 2, 2022 the minimum lease payments amount to \$187,392 for the year ending December 31, 2022, and \$191,106 for the year ending December 30, 2023.

The table below includes the balances of operating lease right-of-use assets and operating lease liabilities as of April 2, 2022:

	April 2, 2022
Assets	
Operating lease right-of-use assets, net	\$ 359,101
Liabilities	
Operating lease liabilities – current	\$ 235,793
Operating lease liabilities – non-current	125,204
Total Lease Liabilities	\$ 360,997

The maturities of our operating lease liabilities as of April 2, 2022, are as follows:

Maturity of Operating Lease Liabilities	
2022	\$ 187,392
2023	191,106
Total lease payments	\$ 378,498
Less: imputed interest	(17,501)
Present value of lease liabilities	\$ 360,997

NOTE 8: RELATED PARTY TRANSACTIONS

In the normal course of business, the Company made purchases from related parties for merchandise and shared services which amounted to \$73,075 and \$84,437 for the 13 weeks ended April 2, 2022 and April 3, 2021, respectively.

In addition, a related party performs certain management services for the Company pursuant to a management services agreement. For these services, the Company pay a monthly management fee equal to 0.75% of the Company's net sales collections.

Management fees amounted to \$30,926 and \$37,531 for the 13 weeks ended April 2, 2022 and April 3, 2021, respectively and are included in general and administrative expenses in the statement of operations.

The Company entered into a new revocable monthly sub-lease agreement for office space from a related party on January 1, 2021. The Company will pay 50% of the related party's fixed monthly rent, including contingent rental expenses. For the 13 weeks ended April 2, 2022 and April 3, 2021, related party office rent amounted to \$82,500 for both periods, and is included in general and administrative expenses in the condensed interim statements of operations.

The Company entered into a new sub-lease agreement for warehouse space from a related party on April 1, 2021. The Company will pay 33.3% of the related party's fixed monthly rent. The lease expires on September 30, 2023. The minimum lease payments amount to \$249,237 for the year ending December 31, 2022, and \$191,106 for the year ending December 30, 2023.

As of April 2, 2022 and January 1, 2022, there was \$719,566 and \$913,708 due to related party, respectively.

See Note 11 for a description of short-term debt from affiliated entities under common control and from stockholders.

NOTE 9: ADVANCE PAYABLE

From time to time, we have been party to cash advance agreements with financial institutions whereby such institutions purchased receivables or advanced cash for us to purchase inventory. Those include the following transactions:

On February 1, 2021, the Company entered into a new cash advance agreement with a financial institution and was advanced cash totaling \$360,000 to be used for the purchase of inventory. In accordance with the agreement, the Company agreed to repay \$381,600, plus interest, by depositing future receivables with the lender. The cash advance bears interest at a rate of 7% per annum for the first 121 days and 12% per annum thereafter until the advance is fully repaid.

On March 10, 2021, the Company entered into a new cash advance agreement with a financial institution and was advanced cash totaling \$100,000 to be used for the purchase of inventory. In accordance with the agreement, the Company agreed to repay the advanced cash plus \$311,953 previously owed to the financial institution (totaling \$411,953), plus interest, by depositing future receivables with the lender in total amount of \$417,954. The cash advance bears interest at a rate of 7% per annum for the first 121 days and 12.50% per annum thereafter until the advance is fully repaid.

On March 10, 2021, the Company also entered into a new cash advance agreement with a financial institution. Pursuant to the agreement, the financial institution purchased \$1,137,666 of receivables from the Company for \$1,062,666, which included \$437,666 owed under the previous agreement. The Company will deliver 12.5% of the future collections of receivables to the financial institution until \$1,137,666 has been paid. In the event no event of default has occurred under the agreement and the Company remains in compliance with its terms, the financial institution will provide a 6% discount on the receivables purchased.

On May 7, 2021, the Company also entered into a new cash advance agreement with a financial institution. Pursuant to the agreement, the financial institution purchased \$461,316 of receivables from the Company for \$446,316, which included \$196,316 owed under the previous agreement. In accordance with the agreement, the Company agreed to repay \$461,316, plus interest, by depositing future receivables with the lender. The cash advance bears interest at a rate of 7.5% per annum for the first 121 days and 12% per annum thereafter until the advance is fully repaid.

On June 4, 2021, the Company entered into a new cash advance agreement with a financial institution and was advanced cash totaling \$125,000 to be used for the purchase of inventory. In accordance with the agreement, the Company agreed to repay the advanced cash plus \$355,598 previously owed to the financial institution (totaling \$480,598), plus interest, by depositing future receivables with the lender in total amount of \$488,098. The cash advance bears interest at a rate of 7.5% per annum for the first 121 days and 12.50% per annum thereafter until the advance is fully repaid.

On June 4, 2021, the Company also entered into a new cash advance agreement with a financial institution. Pursuant to the agreement, the financial institution purchased \$1,196,055 of receivables from the Company for \$1,124,055, which included \$524,055 owed under the previous agreement. The Company will deliver 12.5% of the future collections of receivables to the financial institution until \$1,196,055 has been paid. In the event no event of default has occurred under the agreement and the Company remains in compliance with its terms, the financial institution will provide a 6% discount on the receivables purchased.

On July 9, 2021, the Company entered into a new cash advance agreement with a financial institution. Pursuant to the agreement, the financial institution purchased \$495,902 of receivables from the Company for \$488,402, which included advanced cash totaling \$125,000 to be used for the purchase of inventory and \$363,402 owed under the previous agreement. In accordance with the agreement, the Company agreed to repay \$495,902, plus interest, by depositing future receivables with the lender. The cash advance bears interest at a rate of 7.5% per annum for the first 121 days and 12.5% per annum thereafter until the advance is fully repaid.

On August 10, 2021, the Company entered into a new cash advance agreement with a financial institution and was advanced cash totaling \$185,000 to be used for the purchase of inventory. In accordance with the agreement, the Company agreed to repay the advanced cash plus \$390,169 previously owed to the financial institution (totaling \$575,169), plus interest, by depositing future receivables with the lender in the total amount of \$586,269. The cash advance bears interest at a rate of 7.5% per annum for the first 121 days and 12.50% per annum thereafter until the advance is fully repaid.

On August 10, 2021, the Company also entered into a new cash advance agreement with a financial institution. Pursuant to the agreement, the financial institution purchased \$1,182,318 of receivables from the Company for \$1,136,718, which included \$756,718 owed under the previous agreement. The Company will deliver 12.5% of the future collections of receivables to the financial institution until \$1,182,318 has been paid. In the event no event of default has occurred under the agreement and the Company remains in compliance with its terms, the financial institution will provide a 6% discount on the receivables purchased.

On October 22, 2021, the Company entered into a new cash advance agreement with a financial institution. Pursuant to the agreement, the financial institution purchased \$863,847 of receivables from the Company for \$857,847, which included \$807,847 owed under the previous agreement. The Company will deliver 12.5% of the future collections of receivables to the financial institution until \$863,847 has been paid. In the event no event of default has occurred under the agreement and the Company remains in compliance with its terms, the financial institution will provide a 6% discount on the receivables purchased.

On October 27, 2021, the Company entered into a new cash advance agreement with a financial institution and was advanced cash totaling \$300,000 to be used for the purchase of inventory. In accordance with the agreement, the Company agreed to repay the advanced cash plus \$381,124 previously owed to the financial institution (totaling \$681,124), plus interest, by depositing future receivables with the lender in the total amount of \$699,124. The cash advance bears interest at a rate of 7.5% per annum for the first 121 days and 12.50% per annum thereafter until the advance is fully repaid.

On November 2, 2021, the Company entered into a new cash advance agreement with a financial institution. Pursuant to the agreement, the financial institution purchased \$923,682 of receivables from the Company for \$899,682, which included \$699,682 owed under the previous agreement. The Company will deliver 12.5% of the future collections of receivables to the financial institution until \$923,682 has been paid. In the event no event of default has occurred under the agreement and the Company remains in compliance with its terms, the financial institution will provide a 6% discount on the receivables purchased.

As of April 2, 2022 and January 1, 2022, the cash advance outstanding, including interest, amounted to \$197,029 and \$932,155, respectively. For the 13 weeks ended April 2, 2022 and April 3, 2021, interest expense related to the advances totaled zero and \$59,149, respectively.

NOTE 10: LOAN PAYABLE

As a response to the COVID-19 pandemic, Congress passed the CARES Act to aid businesses through the current economic conditions. The CARES Act provided businesses with loans from the Small Business Administration (“SBA”) based on a calculation provided by the SBA. In 2020, the Company received \$442,352 in funding from these loans. The CARES Act provides a provision allowing all or a portion of the loan to be forgiven by the SBA based on certain criteria. Any unforgiven portion will be repaid over a two-year period with a ten-month deferral on payments yielding 1% interest. The Company applied for forgiveness of the loan and on August 2, 2021, notification and confirmation was received that our loan including related accrued interest had been forgiven in its entirety by the SBA. The forgiveness amount was recorded in other income in the condensed interim statements of operations.

NOTE 11: SHORT-TERM DEBT

In April and June 2021, the Company entered into various short-term, unsecured promissory notes with an affiliated entity under common control in the amount of \$400,000. The notes are noninterest-bearing and were due on December 31, 2021. On November 16, 2021, the Company paid in full the outstanding loan amounts of \$400,000.

On June 28, 2021, the Company entered into four unsecured convertible promissory notes with stockholders in the aggregate amount of \$100,000. Each of the convertible notes were payable on January 15, 2022 and were automatically convertible into shares of the Company’s common stock at a conversion price equal to the per share price of the next equity funding completed by the Company in an amount of at least \$2,000,000 and required the repayment of 110% of such convertible note amount upon a sale of the Company (including a change of 50% or more of the voting shares). On August 25, 2021, the parties agreed to amend the previously convertible notes to remove the conversion rights provided for therein and clarify that no interest accrues on the convertible notes. On December 27, 2021, the Company paid in full the outstanding loan amounts of \$100,000.

On August 13, 2021, the Company entered into two unsecured convertible promissory notes with stockholders in the aggregate amount of \$200,000. Each of the convertible notes were payable on January 15, 2022 and were automatically convertible into shares of the Company's common stock at a conversion price equal to the per share price of the next equity funding completed by the Company in an amount of at least \$2,000,000 and requires the repayment of 110% of such convertible note amount upon a sale of the Company (including a change of 50% or more of the voting shares). On August 25, 2021, the parties agreed to amend the previously convertible notes to remove the conversion rights provided for therein and clarify that no interest accrues on the convertible notes. On March 31, 2022, and effective on January 15, 2022, the parties amended the notes to be payable on demand.

In September, October and November 2021, the Company borrowed \$2,500,000 from a stockholder. The notes are unsecured, noninterest-bearing and the principal was due on January 15, 2022, or was due at the rate of 110% of such note amount upon a sale of the Company (including a change of 50% or more of the voting shares). On December 27, 2021, the Company paid \$500,000 of the outstanding loan amounts. On March 31, 2022, and effective on January 15, 2022, the parties amended the notes to be payable on demand.

NOTE 12: LINE OF CREDIT

In September 2017, the Company entered into a loan and security agreement with a lender for an initial term of two years. The agreement was amended in July 2019, September 2019, November 2020, April 2021, July 2021 and August 2021. The agreement allows the Company to request advances from the lender up to \$3,200,000, in minimum installments of \$10,000. The advances are limited to the lower of (i) 70% of the Company's inventory cost at the time of request, or (ii) 75% of net orderly liquidation value, when applied to eligible inventory. The advances bear interest at a rate of 1.42% per month and mature on November 20, 2021. The loan and security agreement is personally guaranteed by two stockholders of the Company. The Loan Agreement includes an early termination fee equal to 3% of the maximum amount available (currently \$3.2 million), provided that such fee is waived if the Company sells equity in order to repay amounts owed under the Loan Agreement. The Loan Agreement includes customary covenants and also includes that an event of default if certain shareholders cease being the direct or indirect beneficial owner of more than 50% of the voting stock, or if any other person or entity shall become the direct or indirect owner of over 45% of the voting stock or if certain employees cease to be employed by the Company. On November 15, 2021, the Company paid off the loan and security agreement in the amount of \$3,200,000 and related outstanding interest and facility fee in amount of \$24,498, with funds raised through the IPO.

As of April 2, 2022 and January 1, 2022, there was no outstanding advance amounts related to the line of credit. Interest expense amounted to zero and \$89,655 for the 13 weeks ended April 2, 2022 and April 3, 2021, respectively.

As of April 2, 2022 and January 1, 2022, deferred financing costs, net of accumulated amortization, totaled zero for both periods. Amortization of these costs amounted to zero and \$12,544 for the 13 weeks ended April 2, 2022 and April 3, 2021, respectively.

NOTE 13: LONG-TERM DEBT

In January, February, and March 2021, the Company entered into various unsecured convertible promissory notes with stockholders in the aggregate amount of \$2,000,000. Each of the convertible notes were payable on January 15, 2022 and were automatically convertible into shares of the Company's common stock at a conversion price equal to the per share price of the next equity funding completed by the Company in an amount of at least \$2,000,000 and required the repayment of 110% of such convertible note amount upon a sale of the Company (including a change of 50% or more of the voting shares). In May 2021, prior to the maturity, the notes in the amount of \$2,000,000 were converted to equity (see Note 15).

NOTE 14: NET LOSS PER COMMON SHARE

The computation of basic net loss per share is based on the weighted average number of common shares outstanding for the 13 weeks ended April 2, 2022 and April 3, 2021. Diluted net loss per share gives effect to stock options and restricted stock units using the treasury stock method, unless the impact is anti-dilutive.

Diluted net loss per share for the period ended April 2, 2022 does not include stock options to purchase 480,000 shares of common stock and 264,000 restricted stock units as their effect was anti-dilutive.

	<u>April 2, 2022</u>	<u>April 3, 2021</u>
Net loss	\$ (1,810,675)	\$ (1,497,986)
Weighted Average Shares – Basic	7,617,834	5,075,444
Dilutive effect of stock options and restricted stock units	-	-
Weighted Average Shares – Diluted	7,617,834	5,075,444
Basic net loss per share	(0.24)	(0.30)
Diluted net loss per share	(0.24)	(0.30)

NOTE 15: STOCKHOLDERS' EQUITY

On May 10, 2021, the Company filed an amended and restated Certificate of Incorporation which authorized 75,000,000 shares of Common Stock having a par value of \$0.001 per share and 25,000,000 shares of Preferred Stock having a par value of \$0.001 per share. All shares of Common Stock shall be of the same class and have equal rights, powers and privileges. The Preferred Stock may be issued from time to time in one or more series and each issued series may have full or limited designations, preferences, participating, special rights and limitation as adopted by the Board of Directors. In conjunction with this amendment, the Company completed a forward split of existing Common Stock whereby each one share of Common Stock was automatically split up and converted into 671 shares of Common Stock. The condensed interim statements of changes in stockholders' equity was restated to retroactively incorporate this stock split.

On May 11, 2021, the Company converted stockholder notes in the amount of \$2,000,000 to equity with the issuance of 339,526 shares of common stock of the Company. The Conversion Agreement provides certain rights to the stockholders, see details below.

On May 11, 2021, the Company entered into an investment agreement with related parties. Pursuant to the investment agreement, the related parties purchased 46,970 shares of common stock for \$275,000. The investment agreement provides certain rights to the stockholders, see details below.

Also on May 11, 2021, the Company entered into an investment agreement with an investment firm owned by a related party. Pursuant to the investment agreement, the firm purchased 38,247 shares of common stock for \$225,000. The Conversion Agreement provides certain rights to the stockholder, see details below.

The Investment Agreement provided preemptive rights for converting note holders, for so long as they hold not less than 5% of the Company's outstanding common stock, to acquire additional shares of common stock to maintain their then current percentage ownership in the Company, on the same terms offered to any other party which triggered such preemptive rights, subject to certain exceptions, and drag-along rights (providing for rights to be dragged along in any transaction relating to the sale of a majority of the Company's outstanding shares or assets, or certain similar transactions, on the same terms, and subject to the same conditions, as other sellers). The agreement also provided anti-dilution rights such that if the Company, after the date of the closing of the transactions contemplated by the Conversion Agreement, issued shares of common stock, or common stock equivalents (options, warrants or convertible securities), if the price per share is less than the conversion price of the converted notes, then we are required to issue additional shares of common stock equal to the difference between the number of shares issued to each purchaser in such anti-dilutive transaction and the aggregate amount of each converted note, divided by such lower dilutive price.

On May 12, 2021, the Company and each then stockholder of the Company, other than one minority stockholder holding 147,620 or 2.7% of the Company's then outstanding common stock, entered into a Covenant Termination and Release Agreement, whereby each executing stockholder, in consideration for \$10, agreed to terminate any and all preemptive rights, anti-dilutive rights, tag-along, drag-along or other special stockholder rights which they held as a result of the terms of any prior Investment Agreements or Conversion Agreements, and release the Company from any and all liability or obligations in connection with any such special stockholder rights.

NOTE 16: EQUITY-BASED COMPENSATION

On May 9, 2021, the Board of Directors and majority stockholders adopted an Equity Incentive Plan which provides an opportunity for any employee, officer, director or consultant of the Company to receive incentive stock options, nonqualified stock options, restricted stock, stock awards, shares in performance of services or any combination of the foregoing.

On September 30, 2021, the Board of Directors and majority stockholders of the Company amended and restated its 2021 Equity Incentive Plan (as amended and restated, the “2021 Plan”). The 2021 Plan provides for the grant of incentive stock options, or ISOs, within the meaning of Section 422 of the Internal Revenue Code, to our employees, and for the grant of nonstatutory stock options, or NSOs, stock appreciation rights, restricted stock awards, restricted stock unit awards (RSU awards), performance awards and other forms of awards to our employees, directors and consultants and any of our affiliates’ employees and consultants. A total of 2,600,000 shares of the Company’s common stock were initially reserved for issuance under the 2021 Plan.

On November 10, 2021, prior to the pricing of the IPO, the Company granted (a) options to purchase an aggregate of 480,000 shares of our common stock at an exercise price of \$8.50 per share, to certain employees and consultants of the Company in consideration for services rendered and to be rendered through May 2024; (b) 254,000 restricted stock units, to certain executive officers; and (c) 10,000 restricted stock units to a board of director member. Such options and restricted stock units vest (i) 1/3 on May 15, 2022 (six months from the closing of the Company’s IPO); (ii) 1/3 on May 15, 2023 (18 months from the closing of the IPO); and (iii) 1/3 on May 15, 2024 (30 months from the closing date of the IPO). The options each have a term of five years.

In determining the fair value of the stock-based awards, we used the Black-Scholes option-pricing model and assumptions discussed below. Each of these inputs is subjective and generally requires significant judgment. *Expected Term* – The expected term represents the period that our stock options are expected to be outstanding and is determined using the simplified method (generally calculated as the mid-point between the vesting date and the end of the contractual term). *Expected Volatility* – The expected volatility was estimated based on the average volatility for publicly traded companies that we considered comparable, over a period equal to the expected term of the stock option grants. *Risk-Free Interest Rate* – The risk-free interest rate is based on the U.S. Treasury zero coupon notes in effect at the time of grant for periods corresponding with the expected term of the option. *Expected Dividend* – We have not paid dividends on our common stock and do not anticipate paying dividends on our common stock; therefore, we use an expected dividend yield of zero.

The fair value of each option we issued—on November 10, 2021 was \$3.16. The weighted average assumptions used included a risk-free interest rate of 0.88%, an expected stock price volatility factor of 52.4% and a dividend rate of 0%. The fair value of each restricted stock unit (RSU) we issued on November 10, 2021 was \$8.50.

A summary of the Company’s time-based stock option activity under the 2021 Plan was as follows:

	Number of Options	Weighted Average Exercise Price
Balance as of January 1, 2022	480,000	\$ 8.50
Granted	-	-
Vested	-	-
Forfeited/Repurchased	(13,000)	-
Balance as of April 2, 2022	467,000	\$ 8.50
Vested as of April 2, 2022	-	-

As of April 2, 2022, there was \$2.8 million of total unrecognized compensation cost related to unvested options and RSUs granted under the 2021 Plan, which is expected to be recognized over a weighted average service period of 2.1 years. The Company records the impact of any forfeitures of options as they occur.

Amortization of this charge, which is included in non-cash compensation expense, for the 13 weeks ended April 2, 2022, was \$617,164 and it is included as part of payroll expense.

NOTE 17: RISK CONCENTRATION AND UNCERTAINTIES

The Company uses various vendors for purchases of inventory. For the 13 weeks ended April 2, 2022, two vendors accounted for approximately 53% of inventory purchases. For the 13 weeks ended April 3, 2021, three vendors accounted for approximately 55% of inventory purchases.

Concentrations of credit risk with respect to accounts receivable are limited due to the large number of customers comprising the Company's customer base. In addition, the Company reviews receivables and recognizes bad debt on a monthly basis for accounts that are deemed uncollectible.

In March 2020, the World Health Organization declared the outbreak of a novel coronavirus as a pandemic, which continues to spread throughout the world affecting the United States and global economies. The potential impact and the duration of the COVID-19 pandemic is difficult to assess or predict. The COVID-19 pandemic has interrupted the global supply chain which has impacted purchases and timing of inventory. As the COVID-19 situation is unprecedented and ever evolving, future events and effects related to the pandemic cannot be determined with precision, and actual results could significantly differ from estimates or forecasts. The extent and duration of the impact of the COVID-19 pandemic on the Company's business is highly uncertain and difficult to predict.

NOTE 18: REVENUE, NET DISCLOSURES

The Company's revenue, net is disaggregated based on the following categories:

	<u>April 2, 2022</u>	<u>April 3, 2021</u>
<i>Revenue by channel</i>		
Subscription boxes	\$ 3,483,851	\$ 4,584,612
Amazon sales	549,500	608,250
Online website sales	292,646	127,671
Total revenue	<u>\$ 4,325,997</u>	<u>\$ 5,320,533</u>

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations

General

You should read the following discussion and analysis of our financial condition and results of operations together with the condensed interim financial statements and related notes that are included elsewhere in this Quarterly Report on Form 10-Q and the audited financial statements and the notes to those financial statements for the fiscal year ended January 1, 2022, which were included in our Annual Report on Form 10-K, filed with the Securities and Exchange Commission on April 1, 2022. The following discussion contains forward-looking statements regarding future events and the future results of the Company that are based on current expectations, estimates, forecasts, and projections about the industry in which the Company operates and the beliefs and assumptions of the management of the Company. See also “Cautionary Statement Regarding Forward-Looking Information”, above. Words such as “expects,” “anticipates,” “targets,” “goals,” “projects,” “intends,” “plans,” “believes,” “seeks,” “estimates,” variations of such words, and similar expressions are intended to identify such forward-looking statements. These forward-looking statements are only predictions and are subject to risks, uncertainties and assumptions that are difficult to predict. Therefore, actual results may differ materially and adversely from those expressed in any forward-looking statements. Factors that might cause or contribute to such differences include, but are not limited to, those discussed elsewhere in this Quarterly Report and in other reports we file with the SEC. The Company undertakes no obligation to revise or update publicly any forward-looking statements for any reason, except as otherwise provided by law.

The following discussion is based upon our financial statements included elsewhere in this Quarterly Report, which have been prepared in accordance with U.S. generally accepted accounting principles. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingencies. In the course of operating our business, we routinely make decisions as to the timing of the payment of invoices, the collection of receivables, the shipment of products, the fulfillment of orders, the purchase of supplies, and the building of inventory, among other matters. Each of these decisions has some impact on the financial results for any given period. In making these decisions, we consider various factors including contractual obligations, customer satisfaction, competition, internal and external financial targets and expectations, and financial planning objectives. On an on-going basis, we evaluate our estimates, including those related to sales returns, allowance for doubtful accounts, impairment of long-term assets, especially goodwill and intangible assets, assumptions used in the valuation of stock-based compensation, and litigation. We base our estimates on historical experience and on various other assumptions that we believe to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

Kidpik Corp. (the “Company”) uses a 52–53-week fiscal year ending on the Saturday nearest to December 31 each year. The year ended December 31, 2022 is a 52-week year and referred to herein as fiscal “2022”. The years ended January 1, 2022 and January 2, 2021 were 52- and 53-week years, respectively. These years are referred to herein as fiscal “2021” and “2020”, respectively. The Company’s fiscal quarters are generally 13 weeks in duration. When the Company’s fiscal year is 53 weeks long, the corresponding fourth quarter is 14 weeks in duration. References to the first quarter of fiscal 2022 and the first quarter of fiscal 2021, refer to the 13 weeks ended April 2, 2022 and April 3, 2021, respectively.

Certain capitalized terms used below but not otherwise defined, are defined in, and shall be read along with the meanings given to such terms in, the notes to the unaudited financial statements of the Company for the 13 weeks ended April 2, 2022 and April 3, 2021, above.

References to our websites and those of third parties below are for information purposes only and, unless expressly stated below, we do not desire to incorporate by reference into this Report information in such websites.

Unless the context otherwise requires, references in this Report to “we,” “us,” “our,” the “Registrant”, the “Company,” “kidpik” and “Kidpik Corp.” refer to Kidpik Corp.

In addition:

- “Active subscriptions” mean individuals who are scheduled to receive future boxes;
- “Boxes” mean the Company’s subscription clothing, shoe and accessories boxes;
- “Customers” means anyone who has received at least one shipment through subscription, direct or indirect sale from the Company;
- “Exchange Act” refers to the Securities Exchange Act of 1934, as amended;
- “Members” means customers who registered at least one subscription;
- “NASDAQ” means the NASDAQ Capital Market;
- “SEC” or the “Commission” refers to the United States Securities and Exchange Commission;
- “Securities Act” refers to the Securities Act of 1933, as amended; and
- “Subscriptions” mean orders for recurring box shipments.

Available Information

The Company makes available free of charge through its internet website, <https://investor.kidpik.com/sec-filings>, its annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K and amendments to these reports filed or furnished pursuant to Section or 15(d) of the Exchange Act, as soon as reasonably practicable after the Company electronically files such material with, or furnishes it to, the SEC. Our SEC filings are also available to the public at the SEC’s web site at <http://www.sec.gov>. Information contained in, or that can be accessed through, our website is not a part of, and is not incorporated into, this Report. Further, the Company’s references to website URLs are intended to be inactive textual references only.

Introduction

Our Management’s Discussion and Analysis of Financial Condition and Results of Operations (MD&A) is provided in addition to the accompanying financial statements and notes to assist readers in understanding our results of operations, financial condition, and cash flows. MD&A is organized as follows:

- Overview.
- Key Performance Indicators.
- Factors Affecting Our Future Performance.
- Components of Results of Operations.
- Results of Operations.
- Liquidity and Capital Resources.
- Critical Accounting and Estimates.

Overview

We began operations in 2016 as a subscription-based e-commerce company on the proposition of making shopping easy, convenient, and accessible for parents by delivering fashionable and customized outfits in a box, for kids. Kidpik provides kids clothing subscription boxes for boys and girls (sizes 2-16) that include *mix-&-match*, coordinated outfits that are personalized based on each member’s style preferences. We focus on providing entire outfits from head-to-toe (including shoes) by designing each seasonal collection in-house from concept to box.

Staying ahead in an emerging industry requires constant innovation in product and services. After launching with our girls’ subscription box for sizes 4-14 in 2016, we have continued to expand our product offering and marketing channels. We expanded into boys’ clothing, added larger sizes for boys and girls—up to 16 for apparel and 6 youth for shoes—added toddler sizes down to 2T & 3T for apparel and 7 & 8 toddler shoes, launched shop.kidpik.com, where we sell individual apparel items and shoes, introduced gift.kidpik.com, where we sell gift boxes featuring pre-styled outfits and gift cards. We also expanded our distribution by selling our branded products on Amazon.com, as well as Fulfilled by Amazon (FBA) and Fulfilled by Merchant (FBM) for pre-packs and individual items.

We launched our debut toddler collection in the first quarter of 2021, introducing sizes 2T and 3T apparel, and size 7 and 8 toddler shoes for boys and girls, which we began to ship in April 2021. We also introduced an “add-on” option for all members pursuant to which they can add additional items of their choosing to their next subscription box order. We plan to broaden the assortment of add-on items offered in an effort to increase the box transaction size and gross margin per box. We have recently expanded our subscription box offerings, introducing a 12-piece box option, adding to the customer experience, and providing an opportunity to drive additional revenue. We have also expanded our seasonal pre-styled fashion box assortment available on our e-commerce website, which provides an upsell opportunity for existing members and additional variety for our e-commerce customers.

As of the date of this Report, we provide e-commerce services only throughout the 48 contiguous U.S. states and Army Post Offices (APOs) and Fleet Post Offices (FPOs).

We have started initiatives to expand our offerings into newborn sizes, including 12 and 18 months, as well as husky/plus and slim sizes. We currently anticipate launching husky/plus, slim and newborn sizes during Q3 of 2022. We plan to continue to analyze the marketplace for interest in new products and may further invest in expanding our current lines.

We have added new channels to our paid advertising strategy, including TikTok, Tap Joy and new affiliate partnerships, with the goal of increasing new member growth. In addition, we have focused on other revenue share marketing opportunities, such as scaling our influencer ambassador program and soft launching a consumer-facing brand ambassador program. We are also pursuing new awareness strategies, such as cross-promotional opportunities with children’s companies with brand synergies.

In November 2021, the Company completed an initial public offering (the “IPO”), in which the Company issued and sold 2,117,647 shares of its authorized common stock for \$8.50 per share for net proceeds of \$16.1 million, after deducting underwriting discounts and commissions, and offering costs.

Key Performance Indicators

Key performance indicators that we use to evaluate our business, measure our performance, identify trends affecting our business, formulate financial projections and make strategic decisions include gross margin, shipped items, and average shipment keep rate, each described in greater detail below.

We also use the following metrics to assess the progress of our business, make decisions on where to allocate capital, time and technology investments and assess the near-term and longer-term performance of our business.

Gross Margin

Gross profit is equal to our net sales less cost of goods sold. Gross profit as a percentage of our net sales is referred to as gross margin. Cost of sales consists of the purchase price of merchandise sold to customers and includes import duties and other taxes, freight in, returned from customers, inventory write-offs, and other miscellaneous shrinkage.

	For the 13 weeks ended	
	<u>April 2, 2022</u>	<u>April 3, 2021</u>
Gross margin	59.9%	60.9%

Adjusted EBITDA

In addition to our results calculated under generally accepted accounting principles in the United States (“U.S. GAAP”), and to provide investors with additional information regarding our financial results, we have disclosed in the table below and elsewhere in this Report, Adjusted EBITDA, a non-U.S. GAAP financial measure that we calculate as net loss before other expense, net, interest, taxes, depreciation and amortization, adjusted to exclude the effects of equity-based compensation expense, and certain non-routine items. We have provided below a reconciliation of Adjusted EBITDA to net loss, the most directly comparable generally accepted accounting principles, or U.S. GAAP, financial measure.

We have included Adjusted EBITDA in this report because it is a key measure used by our management and board of directors to evaluate our operating performance, generate future operating plans and make strategic decisions regarding the allocation of capital. In particular, the exclusion of certain expenses in calculating Adjusted EBITDA facilitates operating performance comparisons on a period-to-period basis and, in the case of exclusion of the impact of equity-based compensation, excludes an item that we do not consider to be indicative of our core operating performance. Accordingly, we believe that Adjusted EBITDA provides useful information to investors and others in understanding and evaluating our operating results in the same manner as our management and board of directors.

Adjusted EBITDA has limitations as an analytical tool, and you should not consider it in isolation or as a substitute for analysis of our results as reported under U.S. GAAP. Some of these limitations are:

- Although depreciation and amortization are non-cash charges, the assets being depreciated and amortized may have to be replaced in the future, and Adjusted EBITDA does not reflect cash capital expenditure requirements for such replacements or for new capital expenditure requirements;
- Adjusted EBITDA does not reflect changes in, or cash requirements for, our working capital needs;
- Adjusted EBITDA does not consider the potentially dilutive impact of equity-based compensation;
- Adjusted EBITDA does not reflect tax payments that may represent a reduction in cash available to us;
- Adjusted EBITDA does not reflect certain non-routine items that may represent a reduction in cash available to us; and
- Other companies, including companies in our industry, may calculate Adjusted EBITDA differently, which reduces its usefulness as a comparative measure.

Because of these limitations, you should consider Adjusted EBITDA alongside other financial performance measures, including various cash flow metrics, net loss and our other U.S. GAAP results.

Our financial results include certain items that we consider non-routine and not reflective of the underlying trends in our core business operations.

A reconciliation of net loss to Adjusted EBITDA is as follows:

	For the 13 weeks Ended	
	April 2, 2022	April 3, 2021
Net loss	\$ (1,810,675)	\$ (1,497,986)
Add (deduct):		
Interest expense	21,674	160,627
Other (income) expense, net	(286,794)	316
Provision for income taxes	-	507
Depreciation and amortization	5,665	9,721
Equity-based compensation	617,164	-
Adjusted EBITDA	<u>\$ (1,452,966)</u>	<u>\$ (1,326,815)</u>

Shipped Items

We define shipped items as the total number of items shipped in a given period to our customers through our active subscription, amazon and online website sales.

	For the 13 weeks ended	
	(In thousands)	
	April 2, 2022	April 3, 2021
Shipped Items	371	543

Average Shipment Keep Rate

Average shipment keep rate is calculated as the total number of items kept by our customers divided by total number of shipped items in a given period.

	For the 13 weeks ended	
	April 2, 2022	April 3, 2021
Average Shipment Keep Rate	70.4%	67.7%

Factors Affecting Our Future Performance

We believe that our performance and future success depend on several factors that present significant opportunities for us, but also pose risks and challenges, including those discussed and in the section titled “Risk Factors.”

Overall Economic Trends

The overall economic environment and related changes in consumer behavior have a significant impact on our business. In general, positive conditions in the broader economy promote customer spending on our sites, while economic weakness, which generally results in a reduction of customer spending, may have a more pronounced negative effect on spending on our sites. Macroeconomic factors that can affect customer spending patterns, and thereby our results of operations, include employment rates, inflation, business conditions, changes in the housing market, the availability of credit, interest rates and fuel and energy costs. In addition, during periods of low unemployment, we generally experience higher labor costs.

Growth in Brand Awareness and Site Visits

We intend to continue investing in our brand marketing efforts. Since 2016 we have made significant investments to strengthen the “[kidpik](#)” brand through expansion of our social media presence. If we fail to cost-effectively promote our brand or convert impressions into new customers, our net sales growth and profitability would be adversely affected.

Acquisition of New Subscriptions

Our ability to attract new subscriptions through marketing and the development of our brand is a key factor for our future growth. If we are unable to acquire sufficient new subscriptions in the future, our revenue might decline. New subscriptions could be negatively impacted if our marketing efforts are less effective in the future. Increases in advertising rates could also negatively impact our ability to acquire new subscriptions cost effectively. Consumer tastes, preferences, and sentiment for our brand may also change and result in decreased demand for our products and services. Laws and regulations relating to privacy, data protection, marketing and advertising, and consumer protection are evolving and subject to potentially differing interpretations. These requirements may be interpreted and applied in a manner that is inconsistent from one jurisdiction to another or may conflict with other rules or our practices and procedures.

Social networks are important as a source of new clients and as a means by which to connect with current clients, and their importance may be increasing. We may be unable to effectively maintain a presence within these networks, which could lead to lower than anticipated brand affinity and awareness, and in turn could adversely affect our operating results. Further, mobile operating system and web browser providers, such as Apple and Google, have implemented product changes to limit the ability of advertisers to collect and use data to target and measure advertising. For example, Apple made a change in iOS 14 that required apps to get a user’s opt-in permission before tracking or sharing the user’s data across apps or websites owned by companies other than the app’s owner. Google intends to further restrict the use of third-party cookies in its Chrome browser in 2023, consistent with similar actions taken by the owners of other browsers, such as Apple in its Safari browser, and Mozilla in its Firefox browser. These changes have reduced and will continue to reduce our ability to efficiently target and measure advertising, in particular through online social networks, making our advertising less cost effective and successful. We expect to continue to be impacted by these changes.

Retention of Existing Subscribers

Our ability to retain subscribers is a also key factor in our ability to generate revenue growth. Most of our current subscribers purchase products through subscription-based plans, where subscribers are billed and sent products on a recurring basis. The recurring nature of this revenue provides us with a certain amount of predictability for future revenue. If customer behavior changes, and customer retention decreases in the future, then future revenue will be negatively impacted.

Inventory Management

To ensure sufficient availability of merchandise, we generally enter into purchase orders well in advance and frequently before apparel trends are confirmed by client purchases. As a result, we are vulnerable to demand and pricing shifts and to suboptimal selection and timing of merchandise purchases. We incur inventory write-offs and changes in inventory reserves that impact our gross margins. Because our merchandise assortment directly correlates to client success, we may at times optimize our inventory to prioritize long-term client success over short-term gross margin impact. Moreover, our inventory investments will fluctuate with the needs of our business. For example, entering new categories or adding new fulfillment centers will require additional investments in inventory.

Investments in Growth

We expect to continue to focus on long-term growth through investments in product offerings and the kids and parent experience. We expect to make significant investments in marketing to acquire new subscribers and customers. Additionally, we intend to continue to invest in our fulfillment and operating capabilities. In the short term, we expect these investments to increase our operating expenses in the future and cannot be certain that these efforts will grow our customer base or be cost-effective; however, in the long term, we anticipate that these investments will positively impact our results of operations.

Components of Results of Operations

Note that our classification of the various items making up cost of goods sold, shipping and handling, payroll and related costs and equity-based compensation and general and administrative costs may vary from other companies in our industry and as such, may not be comparable to a competitor's.

Revenue

We generate revenue in two categories: 1) the sale items in our subscription boxes, and 2) the sale of one-time purchases via shop.kidpik.com, and other marketplaces. We refer to these revenue classification as “Subscription boxes” and “one-time purchases”, respectively. Net revenue is revenue less promotional discounts, actual customer credits and refunds as well as customer credits and refunds expected to be issued, and sales tax. When we use the term revenue in this Report, we are referring to net revenue, unless otherwise stated. We also recognize revenue resulting upon the use of gift cards. Customers who decide to return some or all of the merchandise they receive in each kidpik box, may return such items within 10 days of receipt of the box. Customers are charged for subscription merchandise which is not returned, or which is accepted and are charged for general merchandise (non-subscription) when they purchase such merchandise; however, they are able to receive a refund on returned merchandise.

Cost of Goods Sold

Cost of goods sold consists of the costs of manufacturing merchandise and the expenses of shipping and importing (duty payments) such merchandise to our warehouse for distribution, and inventory write-offs, offset by the recoverable cost of merchandise estimated to be returned.

Shipping and Handling

Shipping and handling, includes the costs of shipping merchandise to our customers, and back to us, as well as the cost of fulfillment and return processing, and the materials used for packing.

Payroll and Related Costs

Payroll and related costs represent employee salaries, taxes, benefits and fees to our payroll provider.

General and Administrative Expenses

General and administrative expenses consist primarily of marketing, professional fees, Amazon seller fees, bad debt expense and credit card fees, among others.

Depreciation and Amortization

Depreciation and amortization expenses consist of depreciation expense for leasehold improvements and equipment.

Interest Expense

Interest expense consists primarily of interest expense associated with our lines of credit, outstanding notes payable, and amortization of deferred expense related to our line of credit.

Other Non-Operating Income

Other non-operating income related to the forgiveness of prior Paycheck Protection Loan.

Provision for Income Taxes

Our provision for income taxes consists of an estimate of federal and state income taxes based on enacted federal and state tax rates, as adjusted for allowable credits, deductions, uncertain tax positions, and changes in the valuation allowance of our net federal and state deferred tax assets.

Results of Operations

Novel Coronavirus (COVID-19)

In December 2019, a novel strain of coronavirus, which causes the infectious disease known as COVID-19, was reported in Wuhan, China. The World Health Organization declared COVID-19 a “Public Health Emergency of International Concern” on January 30, 2020 and a global pandemic on March 11, 2020. In March and April 2020, many U.S. states and local jurisdictions began issuing ‘stay-at-home’ orders, which have mainly since expired. The U.S. has recently seen decreases in total new COVID-19 infections; however, it is unknown whether such decreases will continue, new strains of the virus will cause numbers to increase, currently projected vaccine efficacy numbers will hold, or new strains of the virus will become dominate in the future, and/or whether jurisdictions in which we operate, will issue new or expanded stay-at-home orders, or how those orders, or others, may affect our operations.

During the majority of March and April 2020, we closed our California warehouse due to stay-at-home orders which were issued in the State of California. We resumed shipping April 17, 2020, following safety protocols and Centers for Disease Control and Prevention (CDC) guidelines, which we strictly adhered to. On aggregate basis we lost about two weeks of potential revenue during this period where we were unable to ship products. For the months of March and April 2020, our new member acquisitions were reduced dramatically. Beginning in early May 2020, through the month of June 2020, our new member acquisitions grew significantly, most likely due to stay-at-home orders when consumers shifted to shopping online, before leveling off to expected growth numbers. The full extent of the impact of COVID-19 on our business and operations currently cannot be estimated and will depend on a number of factors including the scope and duration of the global pandemic.

Since the start of the pandemic, we have taken steps to prioritize the health and safety of our employees. Some of our employees continue to work remotely as a result of the COVID-19 pandemic. Currently we believe that we have sufficient cash on hand, and will generate sufficient cash through operations, to support our operations for the near term; however, we will continue to evaluate our business operations based on new information as it becomes available and will make changes that we consider necessary in light of any new developments regarding the ongoing pandemic.

Although COVID-19 has had a major impact on businesses around the world, to date, other than in March and April 2020, during which period, as described above, our warehouse was shut down, the pandemic has not had a significant negative impact on our business. Since then, our warehouse returned to working at full capacity; however, the full extent to which COVID-19 will ultimately impact us depends on future unknowable developments, including the duration and spread of the virus, as well as potential new seasonal outbreaks, virus mutations, the efficacy of vaccines, and the willingness of individuals to take such vaccines, all of which are uncertain and cannot be predicted.

We have, however, experienced shipping delays to and from our customers as a result of our shipping vendors' challenges fulfilling higher eCommerce shipping demand, which may negatively impact our results of operations. We also have been affected by, and expect to continue to be affected by, COVID-related freight delays and difficulties sourcing materials. Additionally, we may be negatively impacted if consumers shift back to traditional brick-and-mortar apparel retailers following the pandemic.

RESULTS OF OPERATIONS

Comparison of the thirteen weeks ended April 2, 2022 and April 3, 2021

Revenue

Our revenue for the 13 weeks ended April 2, 2022, decreased by 18.7% to \$4,325,997, compared to \$5,320,533 for the 13 weeks ended April 3, 2021, a decrease of \$994,536 from the prior period. The revenue breakdown by sales channel for the 13 weeks ended April 2, 2022, and April 3, 2021, is summarized in the tables below:

	13 weeks ended April 2, 2022	13 weeks ended April 3, 2021	Change (\$)	Change (%)
<i>Revenue by channel</i>				
Subscription boxes	\$ 3,483,851	\$ 4,584,612	\$ (1,100,761)	(24.0)%
Amazon sales	549,500	608,250	(58,750)	(9.7)%
Online website sales	292,646	127,671	164,975	129.2%
Total revenue	<u>\$ 4,325,997</u>	<u>\$ 5,320,533</u>	<u>\$ (994,536)</u>	<u>(18.7)%</u>

The revenue from subscription boxes for the 13 weeks ended April 2, 2022 and April 3, 2021, was generated from active subscriptions recurring boxes revenue and new subscriptions first box revenue, as summarized in the tables below:

	13 weeks ended April 2, 2022	13 weeks ended April 3, 2021	Change (\$)	Change (%)
<i>Subscription boxes revenue from</i>				
Active subscriptions – recurring boxes	\$ 3,136,569	3,733,722	(597,153)	(16.0)%
New subscriptions - first box	347,282	850,890	(503,608)	(59.2)%
Total subscription boxes revenue	<u>\$ 3,483,851</u>	<u>\$ 4,584,612</u>	<u>\$ (1,100,761)</u>	<u>(24.0)%</u>

The decrease in revenue was primarily driven by a decrease in subscription boxes sales. The revenue breakdown by product line for the 13 weeks ended April 2, 2022 and April 3, 2021 is summarized in the tables below:

	13 weeks ended April 2, 2022	13 weeks ended April 3, 2021	Change (\$)	Change (%)
<i>Revenue by product line</i>				
Girls' apparel	\$ 3,256,893	\$ 4,182,652	\$ (925,761)	(22.1)%
Boys' apparel	867,794	1,130,474	(262,680)	(23.2)%
Toddlers' apparel	201,310	7,407	193,903	2,618%
Total revenue	\$ 4,325,997	\$ 5,320,533	\$ (994,536)	(18.7)%

The number of items shipped to our customers decreased by 31.7%, from approximately 543,000 for the 13 weeks ended April 3, 2021, to approximately 371,000 for the 13 weeks ended April 2, 2022. The average shipment keep rate increased to 70.4% in the 13 weeks ended April 2, 2022, compared to 67.7% in the 13 weeks ended April 3, 2021.

Cost of Goods Sold

Our cost of goods sold decreased by 16.7% to \$1,733,914 for the 13 weeks ended April 2, 2022, compared to \$2,082,202 for the 13 weeks ended April 3, 2021, a decrease of \$348,288.

The decrease in cost of goods sold for the 13 weeks ended April 2, 2022, compared to the same period in fiscal 2021, was primarily attributable to the decrease in our subscription box sales as discussed above.

Gross Profit and Gross Profit as a Percentage of Revenue

Our gross profit was \$2,592,083 for the 13 weeks ended April 2, 2022, compared to gross profit of \$3,238,331 for the 13 weeks ended April 3, 2021. The decrease in gross profit for the 13 weeks ended April 2, 2022, compared to the same period in fiscal 2021, was primarily attributable to the decrease in our subscription box sales.

Gross profit as a percentage of revenue was 59.9% for the 13 weeks ended April 2, 2022, compared to 60.9% for the 13 weeks ended April 3, 2021.

Operating Expenses

Our operating expenses for the 13 weeks ended April 2, 2022 and April 3, 2021, are summarized in the tables below:

	13 weeks ended April 2, 2022	13 weeks ended April 3, 2021	Change (\$)	Change (%)
<i>Expenses</i>				
Shipping and handling	\$ 1,132,084	\$ 1,534,454	\$ (402,370)	(26.2)%
Payroll, related costs and equity-based compensation	1,599,236	958,639	640,597	66.8%
General and administrative	1,930,893	2,072,053	(141,160)	(6.8)%
Depreciation and amortization	5,665	9,721	(4,056)	(41.7)%
Total expenses	\$ 4,667,878	\$ 4,574,867	\$ 93,011	2.0%

Our operating expenses include general and administrative expenses, salaries and benefits, shipping and handling, and depreciation and amortization, as shown in the tables above. Our operating expenses for the 13 weeks ended April 2, 2022, increased by \$93,011 or 2.0% to \$4,667,878, compared to \$4,574,867 for the 13 weeks ended April 3, 2021. This increase was mainly a result of (i) an increase in payroll and related costs of \$640,597, mainly due to non-cash, equity-based compensation of \$617,164 recorded in the first quarter of 2022, (ii) offset by a decrease in shipping and handling of \$402,370, which was due to lower subscription box sales — our shipping and handling expenses were 23.9% of total revenue in the current period, compared to 28.8% of total revenue in the previous period and (iii) a \$141,160 decrease in general and administrative expenses, mainly due to a decrease in marketing expenses and a decrease in third party fees due to the decrease in sales.

Loss from Operations

Loss from operations increased from \$1,336,536 for the 13 weeks ended April 3, 2021, to \$2,075,795 for the 13 weeks ended April 2, 2022. The increase in loss from operations was largely due to non-cash compensation of \$617,164 and decrease in sales.

Other Expenses

Total other (income)/expenses were (\$265,120) and \$160,943 for the 13 weeks ended April 2, 2022 and April 3, 2021, respectively. The decrease in interest expense was due to the decrease in our debt balances, and increase in other income for the 13 weeks ended April 2, 2022 was due to settlement of insurance claim related to business interruption of damaged inventory.

Provision for Income Taxes

We had a nominal or no provision for income taxes during both the 13 weeks ended April 2, 2022 and April 3, 2021.

Net Loss

We had a net loss of \$1,810,675 for the 13 weeks ended April 2, 2022, compared to a net loss of \$1,497,986 for the 13 weeks ended April 3, 2021, an increase in net loss of \$312,689 or 20.9%. The increase in net loss was primarily due to an increase in non-cash, equity-based compensation expense of \$617,164 and decrease in revenue, offset by a decrease in general and administrative expenses of \$141,160 and a decrease in interest expenses of \$138,953, each as discussed in greater detail above.

LIQUIDITY AND CAPITAL RESOURCES

	<u>April 2, 2022</u>	<u>January 1, 2022</u>	<u>Change (\$)</u>	<u>Change (%)</u>
Cash	\$ 5,430,075	\$ 8,415,797	\$ (2,985,722)	(35.5)%
Working Capital	\$ 13,261,930	\$ 14,700,691	\$ (1,438,761)	(9.8)%
Short-term debt, related party	\$ 2,200,000	\$ 2,200,000	\$ -	-

On April 2, 2022, we had \$5,430,075 of cash on hand compared to \$8,415,797 of cash on hand at January 1, 2022.

As of April 2, 2022, the Company had total current liabilities of \$6,269,878, consisting mainly of accounts payable of \$2,588,643, accounts payable to related party of \$719,566, accrued expenses of \$328,847, advance payable of \$197,029 (discussed below), operating lease liability of \$235,793 and short-term debt from related party of \$2,200,000 (discussed below).

As of April 2, 2022, we had \$19,531,808 in total current assets, \$6,269,878 in total current liabilities, working capital of \$13,261,930 and a total accumulated deficit of \$35,729,859.

Through November 10, 2021, we mainly relied on loans from Ezra Dabah, our Chief Executive Officer and Chairman, and his family (which have all, other than \$2,200,000, been converted into equity as of May 11, 2021), notes payable (including from Nina Footwear Corp. which is 86.36% owned by Ezra Dabah and his family, including Moshe Dabah, and which entity Ezra Dabah serves as Chief Executive Officer and member of the Board of Directors of “Nina Footwear”, a related party, and our line of credit (repaid as of January 1, 2022), and Cash Advance Agreements (each discussed below), as well as revenue generated through our operations, to support our operations since inception. We have primarily used our available cash to pay operating expenses (salaries and other expenses), and for merchandise inventory costs, shipping costs and marketing expenditures. We do not have any material commitments for capital expenditures. Following the closing of the IPO in November 2021, we have also relied on the funds raised in the IPO to support our operations.

We have experienced recurring net losses since inception and negative operating cash flows. We believe that we will continue to incur substantial operating expenses in the foreseeable future as we continue to invest to attract new customers, expand the product offerings and enhance technology and infrastructure. These efforts may prove more expensive than we anticipate, and we may not succeed in increasing the net revenue and margins sufficiently to offset these expenses. Accordingly, we may not be able to achieve profitability, and we may incur significant losses for the foreseeable future.

To support our existing operations or any future expansion of business, including the ability to execute our growth strategy, we must have sufficient capital to continue to make investments and fund operations. We have plans to pursue a growth strategy for the expansion of operations through increased marketing to attract new members and refine the marketing strategy to strategically prioritize customer acquisition channels that we believe will be more successful at attracting new customers and members. We plan to launch new divisions and product lines to help attract new members and retain existing members. We launched a new boys’ apparel division in the summer of 2020 and a toddler division at the end of March 2021. We have plans to make husky/plus and slim sizes available for the fall 2022 season and also increase our size assortment to include sizes 12 months and 18 months. We also have plans to increase efficiency in distribution and fulfillment capabilities to reduce costs associated with subscription box sales.

In November 2021, we completed our IPO in which we issued and sold 2,117,647 shares of authorized common stock for \$8.50 per share, for net proceeds of \$16.1 million, after deducting underwriting discounts and commissions, and offering costs.

We have used the net proceeds from the IPO to repay debt, and plan to continue to use such net proceeds to increase our capitalization and financial flexibility, and create a public market for our common stock, and facilitate our future access to the capital markets. We also plan to continue to use a portion of the net proceeds for marketing expenses and for working capital. We used a portion of the net proceeds from the offering to pay all or a portion of our debt outstanding as of October 28, 2021, which included (i) the repayment of amounts owed to Crossroads totaling approximately \$3.2 million (which amount was repaid in full, together with accrued interest and a termination fee in the amount of \$24,498, on November 15, 2021); (ii) amounts owed under a short-term, unsecured promissory note, with Nina Footwear in the amount of \$0.4 million, which is noninterest-bearing and due on December 31, 2021 (of which \$0.4 million was paid on November 16, 2021); (iii) amounts owed to related party in the amount of \$1.3 million (which do not have a stated maturity date and which do not accrue interest) (of which \$0.8 million was paid as of April 2, 2022); (iv) amounts owed in connection with vendor payables of approximately \$1.2 million (of which \$0.5 million was settled as of April 2, 2022); and (v) amounts due under unsecured promissory notes with Ezra Dabah, our Chief Executive Officer and other related party stockholders, which are trusts controlled by family members of Ezra Dabah in the amount of \$2.8 million (of which \$0.6 million was paid as of April 2, 2022), which do not accrue interest.

We expect to continue to generate net losses for the foreseeable future as we make investments to grow our business. We believe that the existing balances of cash and cash equivalents following the IPO will be sufficient to meet our anticipated cash requirements for at least twelve months from the date that these financial statements are issued. However, should our current cash and cash equivalents not be sufficient to support the development of our business to the point at which it has positive cash flows from operations, we plan to meet our future needs for additional capital through equity financings, debt financings or other capital sources, including collaborations with other companies or other strategic transactions. Equity financings may include sales of common stock. Such financing may not be available on terms favorable to us or at all. The terms of any financing may adversely affect the holdings or rights of our stockholders. If we are unable to obtain adequate financing or financing on terms satisfactory to us when required, our ability to continue to support our business growth, scale our infrastructure, and to respond to business challenges could be significantly impaired.

Cash Flows

	13 weeks ended April 2, 2022	13 weeks ended April 3, 2021
<i>Cash provided by (used in):</i>		
Operating activities	\$ (2,233,663)	\$ (2,687,144)
Investing activities	(17,018)	-
Financing activities	(735,126)	2,614,361
Net decrease in cash	<u>\$ (2,985,807)</u>	<u>\$ (72,783)</u>

Net cash used in operating activities decreased to \$2,233,663 for the 13 weeks ended April 2, 2022, compared to \$2,687,144 of cash used in operating activities during the 13 weeks ended April 3, 2021. The decrease in our cash used in operating activities of approximately \$0.45 million was primarily due to adjustments for non-cash items totaling \$0.53 million, and the positive impact from changes in operating assets and liabilities in the amount of approximately \$0.24 million, offset by an increase in the net loss in the amount of approximately \$0.31 million, as discussed in greater detail above.

Net cash used in investing activities during the 13 weeks ended April 2, 2022 was \$17,018, which was related to purchases of equipment, compared to no cash used in investing activities during the 13 weeks ended April 3, 2021.

Net cash used in financing activities was \$735,126 for the 13 weeks ended April 2, 2022, related to repayment of advances payable, compared to net cash provided by financing activities of \$2,614,361 for the 13 weeks ended April 3, 2021, mainly as a result of \$2.1 million in convertible notes sold during the prior period, which have since been converted into common stock, and an increase in advance payable in amount of \$0.4 million.

Line of Credit

On September 5, 2017, we entered into a Loan and Security Agreement (as amended, the “Loan Agreement”) with Crossroads Financial Group, LLC (“Crossroads”), which is described in greater detail under “Note 12: Line of Credit” to our unaudited financial statements included in this Quarterly Report on Form 10-Q. On November 15, 2021, we paid off the loan and security agreement in the amount of \$3,200,000 and related outstanding interest and facility fee in amount of \$24,498, with funds raised through the IPO.

Interest expense amounted to zero and \$89,655 for the 13 weeks ended April 2, 2022 and April 3, 2021, respectively, on such Loan Agreement. As of April 2, 2022 and April 3, 2021, deferred financing costs, net of accumulated amortization, totaled zero and \$20,906, respectively. Amortization of these costs amounted to zero and \$12,544 for the 13 weeks ended April 2, 2022 and April 3, 2021, respectively.

Cash Advance Agreements

From time to time, we have been party to cash advance agreements with financial institutions whereby such institutions purchased receivables or advanced cash for us to purchase inventory, which are described in greater detail under “Note 9: Advance Payable” to our unaudited financial statements included in this Quarterly Report on Form 10-Q.

As of April 2, 2022 and January 1, 2022, the cash advance outstanding, including interest, amounted to \$197,029 and \$932,155, respectively. For the 13 weeks ended April 2, 2022 and April 3, 2021, interest expense related to the advances totaled zero and \$59,149, respectively.

SBA Loan

As a response to the COVID-19 pandemic, Congress passed the Coronavirus Aid, Relief and Economic Security Act (“CARES Act”) to aid businesses through the current economic conditions. The CARES Act provided businesses with loans from the Small Business Administration (“SBA”) based on a calculation provided by the SBA. In 2020, the Company received \$442,352 in funding from these loans. The CARES Act provides a provision allowing all or a portion of the loan to be forgiven by the SBA based on certain criteria. Any unforgiven portion will be repaid over a two-year period with a 10-month deferral on payments yielding 1% interest. The Company applied for forgiveness and on August 2, 2021, we received notification and confirmation that our loan, including related accrued interest, was forgiven in its entirety by the SBA. The forgiveness amount was recorded in other income.

Related Party Convertible Notes and Loans

In January, February, and March 2021, the Company entered into various unsecured convertible promissory notes with stockholders in the aggregate amount of \$2,000,000. Each of the convertible notes were payable on January 15, 2022 and were automatically convertible into shares of the Company’s common stock at a conversion price equal to the per share price of the next equity funding completed by the Company in an amount of at least \$2,000,000 and required the repayment of 110% of such convertible note amount upon a sale of the Company (including a change of 50% or more of the voting shares). In May 2021, prior to the maturity, the notes in the amount of \$2,000,000 were converted to equity.

In April and June 2021, the Company entered into various short-term, unsecured promissory notes with an affiliated entity under common control in the amount of \$400,000. The notes are noninterest-bearing and due on December 31, 2021. On November 16, 2021, the Company paid in full the outstanding loan amounts of \$400,000.

On June 28, 2021, the Company entered into four unsecured convertible promissory notes with stockholders in the aggregate amount of \$100,000. Each of the convertible notes were payable on January 15, 2022 and were automatically convertible into shares of the Company’s common stock at a conversion price equal to the per share price of the next equity funding completed by the Company in an amount of at least \$2,000,000 and required the repayment of 110% of such convertible note amount upon a sale of the Company (including a change of 50% or more of the voting shares). On August 25, 2021, the parties agreed to amend the previously convertible notes to remove the conversion rights provided for therein and clarify that no interest accrues on the convertible notes. On December 27, 2021, the Company paid in full the outstanding loan amounts of \$100,000.

On August 13, 2021, the Company entered into two unsecured convertible promissory notes with stockholders in the aggregate amount of \$200,000. Each of the convertible notes were payable on January 15, 2022 and were automatically convertible into shares of the Company’s common stock at a conversion price equal to the per share price of the next equity funding completed by the Company in an amount of at least \$2,000,000 and requires the repayment of 110% of such convertible note amount upon a sale of the Company (including a change of 50% or more of the voting shares). On August 25, 2021, the parties agreed to amend the previously convertible notes to remove the conversion rights provided for therein and clarify that no interest accrues on the convertible notes. On March 31, 2022, and effective on January 15, 2022, the parties amended the notes to be payable on demand.

In September, October and November 2021, the Company borrowed an aggregate of \$2,500,000 from Ezra Dabah, who is our Chief Executive Officer and Chairman. The notes are unsecured, noninterest-bearing and the principal is fully due on January 15, 2022, at the rate of 110% of such note amount upon a sale of the Company (including a change of 50% or more of the voting shares). On December 27, 2021, the Company paid \$500,000 of the outstanding loan amounts. On March 31, 2022, and effective on January 15, 2022, the parties amended the notes to be payable on demand.

As of April 2, 2022 and January 1, 2022, there was \$719,566 and \$913,708 due to related party, respectively.

Need for Future Funding

As discussed above, our current capital resources, combined with the remaining amount of net proceeds from the IPO, are expected to be sufficient for us to fund operations for the next 12 months from the date these financial statements were issued. We may need funding in addition to the funding raised in this offering, to support our operations in the future. We may also seek to acquire additional businesses or assets in the future, which may require us to raise funding. We currently anticipate such funding, if required, being raised through the offering of debt or equity. Such additional financing, if required, may not be available on favorable terms, if at all. If debt financing is available and obtained, our interest expense may increase and we may be subject to the risk of default, depending on the terms of such financing. If equity financing is available and obtained it may result in our stockholders experiencing significant dilution. If such financing is unavailable, we may be forced to curtail our business plan, which may cause the value of our securities to decline in value.

Off-Balance Sheet Arrangements

We have not entered into any off-balance sheet arrangements and do not have any holdings in variable interest entities.

Critical Accounting Policies and Estimates

Our financial statements and the related notes thereto included elsewhere in this Quarterly Report on Form 10-Q are prepared in accordance with U.S. GAAP. The preparation of financial statements requires management to make estimates and assumptions that affect the reporting values of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenue and expenses during the reporting period. The more significant estimates and assumptions are those used in determining the recoverability of long-lived assets and inventory obsolescence. Accordingly, actual results could differ from those estimates. To the extent that there are differences between our estimates and actual results, our future financial statement presentation, financial condition, results of operations and cash flows will be affected.

Our critical accounting policies are described under the heading “Management’s Discussion and Analysis of Financial Condition and Results of Operations—Critical Accounting Policies and Estimates” in the 2021 Annual Report and the notes to the audited financial statements appearing elsewhere in the Annual Report. During the 13 weeks ended April 2, 2022, there were no material changes to our critical accounting policies from those discussed in our 2021 Annual Report.

JOBS Act and Recent Accounting Pronouncements

The JOBS Act provides that an “emerging growth company” can take advantage of the extended transition period provided in Section 7(a)(2)(B) of the Securities Act, for complying with new or revised accounting standards. In other words, an “emerging growth company” can delay the adoption of certain accounting standards until those standards would otherwise apply to private companies. We have elected to take advantage of the extended transition period provided in Section 7(a)(2)(B) of the Securities Act, for complying with new or revised accounting standards that have different effective dates for public and private companies until the earlier of the date we (i) are no longer an emerging growth company or (ii) affirmatively and irrevocably opt out of the extended transition period provided in Section 7(a)(2)(B) of the Securities Act.

We have implemented all new accounting pronouncements that are in effect and may impact our financial statements and we do not believe that there are any other new accounting pronouncements that have been issued that might have a material impact on our financial position or results of operations.

Recent Accounting Pronouncements

Refer to “[Note 2: Summary of Significant Accounting Policies](#)” to our unaudited financial statements included in this Quarterly Report on Form 10-Q for a discussion of recently issued accounting pronouncements not yet adopted.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

We are a smaller reporting company as defined by Rule 12b-2 of the Exchange Act and are not required to provide the information otherwise required under this item.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Our management, with the participation of our Chief Executive Officer and our Chief Financial Officer, has evaluated the effectiveness of our disclosure controls and procedures as of April 1, 2022, the end of the period covered by this Quarterly Report on Form 10-Q. The term “disclosure controls and procedures,” as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act, means controls and other procedures of a company that are designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the SEC’s rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is accumulated and communicated to our management, including our principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure. Based on such evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that, as of such date, our disclosure controls and procedures were effective.

Changes in Internal Control Over Financial Reporting

There has been no change in our internal control over financial reporting (as defined in Rule 13a-15(f) and 15d-15(f) under the Exchange Act) during the 13 weeks ended April 2, 2022 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Limitations on Effectiveness of Controls and Procedures

In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives. In addition, the design of disclosure controls and procedures must reflect the fact that there are resource constraints and that management is required to apply its judgment in evaluating the benefits of possible controls and procedures relative to their costs.

PART II - OTHER INFORMATION

Item 1. Legal Proceedings

We are not party to any material legal proceedings at this time. From time to time, we may become involved in various legal proceedings that arise in the ordinary course of business, principally personal injury and property casualty claims. Those claims, even if lacking merit, could result in the expenditure by us of significant financial and managerial resources. We may become involved in material legal proceedings in the future.

Item 1A. Risk Factors

Reference is made to Part I, Item 1A, "Risk Factors" included in our 2021 Annual Report for information concerning risk factors, which should be read in conjunction with the factors set forth in "Cautionary Statement Regarding Forward-Looking Information" of this Report. There have been no material changes with respect to the risk factors disclosed in our 2021 Form 10-K. You should carefully consider such factors, which could materially affect our business, financial condition or future results. The risks described in the 2021 Form 10-K are not the only risks facing our company. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially and adversely affect our business, financial condition and/or operating results.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

Recent Sales of Unregistered Securities

None.

Use of Proceeds from Initial Public Offering

On November 15, 2021, we completed our IPO, in which we sold 2,117,647 shares of common stock at a price to the public of \$8.50 per share. In connection with the IPO, the Company also granted the representative of the underwriters a 45-day option to purchase up to an additional 317,647 shares of its common stock. We received aggregate net proceeds of approximately \$16.1 million, after deducting underwriting discounts and commissions, and offering costs.

We have used the net proceeds from the IPO to repay debt, and plan to continue to use such net proceeds to increase our capitalization and financial flexibility, and create a public market for our common stock, and facilitate our future access to the capital markets. We also plan to continue to use a portion of the net proceeds for marketing expenses and for working capital. We used a portion of the net proceeds from the offering to pay all or a portion of our debt outstanding as of October 28, 2021, which included (i) the repayment of amounts owed to Crossroads totaling approximately \$3.2 million (which amount was repaid in full, together with accrued interest and a termination fee in the amount of \$24,498, on November 15, 2021); (ii) amounts owed under a short-term, unsecured promissory note, with Nina Footwear in the amount of \$0.4 million, which is noninterest-bearing and due on December 31, 2021 (of which \$0.4 million was paid on November 16, 2021); (iii) amounts owed to related party in the amount of \$1.3 million (which do not have a stated maturity date and which do not accrue interest) (of which \$0.8 million was paid as of April 2, 2022); (iv) amounts owed in connection with vendor payables of approximately \$1.2 million (of which \$0.5 million was settled as of April 2, 2022); and (v) amounts due under unsecured promissory notes with Ezra Dabah, our Chief Executive Officer and other related party stockholders, which are trusts controlled by family members of Ezra Dabah in the amount of \$2.8 million (of which \$0.6 million was paid as of April 2, 2022), which do not accrue interest.

All the shares issued and sold in our IPO were registered under the Securities Act pursuant to a registration statement on Form S-1 (File No. 333-260101) filed by the Company with the SEC under the Securities Act on October 6, 2021, as amended and the Company's registration statement on Form S-1MEF (File No. 333-260986) filed by the Company with the SEC under the Securities Act on November 10, 2021, each of which became effective on November 10, 2021. The representative of the underwriters of our IPO was EF Hutton, division of Benchmark Investments, LLC. Following the sale of all the shares upon the closing of the IPO, the offer terminated. No payments were made by us to directors, officers or persons owning ten percent or more of our common stock or to their associates, or to our affiliates, other than payments in the ordinary course of business, and payments for the repayment of debt, as discussed above (which repayments to affiliates totaled approximately \$1.8 million).

There has been no material change in the expected use of the net proceeds from our initial public offering as described in our final prospectus filed with the SEC on November 15, 2021, pursuant to Rule 424(b).

The expected use of net proceeds from the IPO represents our intentions based upon our present plans and business conditions. We cannot predict with certainty all of the particular uses for the proceeds of the IPO or the amounts that we will actually spend on the uses set forth above. Accordingly, our management will have broad discretion in the application of the net proceeds we received from the IPO, and investors will be relying on the judgment of our management regarding the application of our net proceeds. While we expect to use the net proceeds for the purposes described above, the timing and amount of our actual expenditures will be based on many factors, including cash flows from operations, the anticipated growth of our business, and the availability and terms of alternative financing sources to fund our growth.

Purchases of Equity Securities by the Issuer and Affiliated Purchasers

None.
